## WEB DEVELOPER

## PROFILE

I am a recent Computer Science graduate with a strong passion for web development. I have a good foundation in HTML, CSS, Python, and basic database management. My technical skills include experience in web development using HTML, CSS, Python, and the Flask framework, as well as basic database handling and data entry. Additionally, I have proficiency in tools like MS Excel, Adobe Illustrator, and the Microsoft Office Suite. With a basic understanding of React.js and a commitment to continuous learning, I am eager to apply my knowledge, further develop my expertise, and contribute effectively to projects in the dynamic field of web development.

## WORK EXPERIENCE

### CodexCue Solution

09-2024 -10-2024

Python Developer

I completed a summer internship as a Python Developer at CodexCue, where I contributed to the development of innovative software solutions. My responsibilities included designing and optimizing Python-based applications to improve functionality and performance. I worked closely with cross-functional teams to meet project goals and deadlines efficiently. During this internship, I gained hands-on experience in problem-solving, debugging, and implementing effective code solutions, which supported the successful delivery of key projects.

### Horizontex Solution

2020-2022

Founder/Lead Manager

As a Founder and Lead Manager, I established and led a dynamic team to achieve ambitious objectives and deliver exceptional results. My role encompassed strategic planning, business development, overseeing operations, and ensuring effective communication across all levels. I was instrumental in fostering a collaborative culture, driving innovation, and implementing efficient problem-solving strategies to steer the team toward sustained success and growth. Through my leadership, I ensured that organizational goals were met while aligning team efforts with the company's vision and values.

# WORK EXPERIENCE
