Objective

4+ years of experiences developing Flutter-based mobile applications, increasing usability by 30%, driving 50% user engagement increase, and boosting sales by 40%. Optimized performance of Flutter app resulting in 300% increase in downloads in 6 months and developed a cross-platform Flutter app in 2 months, resulting in 40% cost savings.

Work Experience

Mid Flutter Developer - Full Time
istoria , Saudi arabia.

Oct2023-Present

Flutter Developer - Full Time
iksib Business Solutions, Kuwait.

August 2021- July 2023

Flutter Developer
Freelancer

Fab 2020 - August 2021

1. Code Implementations and Updates:

- Collaborated with cross-functional teams on projects, contributing to the implementation and update of lines of code using Flutter and Dart.

2. Daily Team Meetings:

- Engaged in daily team meetings to foster task alignment and boost team productivity.

3. Client Interaction:

- Collaborated with Business Analysts to comprehend client requirements, leading to successful project outcomes.

4. Unit Testing:

- Implemented rigorous unit testing protocols for every task, achieving a defect-free rate of, ensuring robust and reliable code.

5. Architectural Patterns:

- Utilized MVVM, MVC, and JSON architectural patterns in the development of apps and app updates, resulting in improved code maintainability and scalability.

6. Design Integration:

- Proficiently converted designs from Figma and Adobe XD into functional Android applications, ensuring precise alignment and timely project delivery.

Latest Projects
