SUMMARY

Passionate Android developer with a strong focus on building high-quality applications using Kotlin. Eager to deepen expertise in Kotlin Multiplatform and explore the potential of Kotlin/WASM and WebAssembly for cross-platform development, creating seamless user experiences across diverse platforms.

PROJECTS

LLMS

📅 08/2024 - Present

🔗 <https://github.com/yassineAbou/LLMS>

- Discover the power of AI with the Kotlin Multiplatform app, where you can choose from many text and image models to boost your creativity.
- Pick the model that fits you, create unique texts or images, and keep everything safe and in sync on your devices.
- This project is currently in development phase.

Clock

📅 06/2022 - 05/2023

🔗 <https://github.com/yassineAbou/Clock>

- Presenting a clock app which was totally made in Jetpack Compose.
- You can use this app's timer and stopwatch functions, which are linked to work manager.
- The animation is added to the app to increase engagement.
- You can create one time and recurring alarms and edit, enable, disable them.

Weather

📅 06/2022 - 05/2023

🔗 <https://github.com/yassineAbou/Weather>

- Users can view and add weather information for multiple cities of their choice with this app.
- It provides a 48-hour forecast, an 8-day forecast, and current weather conditions.
- The app can also detect the user's location to provide accurate local weather information.

Calculator

📅 05/2021 - 06/2023

🔗 <https://github.com/yassineAbou/Calculator>

- This app simplifies all the mathematical needs from basic to complex functions.
- It allows the user to save and reference his previous calculations at any time.
- It can easily handle EMI calculations, compare results, and share them with other apps.

EXPERIENCE

Kotlin Multiplatform Developer

One4Studio

📅 12/2023 - Present 📍 Remote

🔗 <https://www.one4studio.com/thematica>

- Working on the development of Thematica, a wallpaper app built with Compose Multiplatform.
- Building and implementing visually appealing UI features for the app's wallpaper browsing and settings interfaces.
- Ensuring seamless alignment of UI components with the business logic, delivering a smooth user experience.
- Collaborating with the team to launch the Thematica app on Android and iOS.

SKILLS

Kotlin **Coroutines** **Android**

Android Studio **Jetpack compose**

Architecture Components **MVVM**

Kotlin Multiplatform

Compose Multiplatform **Ktor**

Arrow
