Professional Summary

Experienced iOS Developer with **8+ years of experience** in building and improving iOS apps using **Swift, UIKit, SwiftUI, and Firebase**. I have a proven track record of **improving app performance by 30%** and **increasing user engagement by 15%**. I am passionate about writing **clean code**, creating **efficient architecture**, and delivering **seamless user experiences**. I enjoy working in challenging environments and collaborating with teams to build **innovative mobile solutions**. Outside of work, I like learning **Kotlin and KMP (Kotlin Multiplatform)**, reading **open-source projects**, exploring open-source projects, and staying updated with the latest trends in mobile development.

Work Experience

iOS Software Engineer, BeMotion

01/2024 – present | US

- **Boosted app performance by 20%** through optimized memory and resource management.
- Integrated **Combine framework** to enhance data handling and event-driven programming.
- Refactored and redesigned core functionalities, **improving user engagement by 15%**.
- Resolved critical issues, leading to a 30% reduction in crashes and resource usage.
- Implemented **unit testing** to ensure stability and maintainability.

SwiftJO, iOS Trainer Online

02/2023 – 11/2023 | UK

- Mentored over 50 students, guiding them in developing real-world iOS applications.

iOS Software Engineer, Zoma, Ecommerce App

06/2022 – 12/2022 | Jordan

- Improved app efficiency by **25%** by optimizing data handling and concurrency.
- Enhanced the user experience by redesigning the product catalog UI, leading to a **15% increase in user retention**.

iOS Software Engineer, Releans

12/2020 – 05/2022 | Jordan

- Integrated **REST APIs** for seamless real-time app functionality.
- Implemented push notifications and optimized data synchronization.

iOS Software Engineer, Tempo

12/2019 – 11/2020 | Jordan

- Designed and developed key features for a **social media app**, integrating chat, posts, and friend requests.
- Implemented **Cloud Functions** to automate daily user connections.
- Developed complex core features for a social media app.

iOS Software Engineer, AppTrainers

06/2018 – 10/2019 | Saudi Arabia

- **Boosted app performance** by refactoring legacy code, resulting in a **20% improvement in app speed and responsiveness**.
- **Enhanced app scalability** by optimizing database queries and reducing server response times by **30%**.

iOS Software Engineer, Trevx

07/2016 – 05/2018 | Jordan

- Led API integration using **Alamofire**, improving data retrieval performance.
- **Fixed critical issues** and optimized app performance
- Participated in **Agile development** and **daily Scrum meetings**.

Projects

CryptoWave (SwiftUI, MVVM, Combin) 🔗

Spotify clone UI (SwiftUI) 🔗

Store App (UIKit, MVP, coordinator, Clean Code) 🔗

Tempo (UIKit) 🔗

Skills

Programming Languages

Swift, Objective-C, Kotlin, SQL

Frameworks & Libraries

SwiftUI, UIKit, Combine, Firebase, Vapor 3, Core Data, Core Location, TouchID, GPS

Architecture & Design Patterns

MVVM, MVP, MVC, Clean Architecture, Architectural Design

Testing & Performance

Unit Testing, XCTest, Debugging, Memory Management

Networking & APIs

RESTful APIs, URLSession, Alamofire, HTTP, WebSockets

Storage & Databases

Core Data, Realm, SQLite, Firebase

Concurrency & Performance

Grand Central Dispatch (GCD), Async/Await, Thread Management

Tools & Platforms

Xcode, Git, Fastlane, TestFlight, Figma

soft skills

Collaboration: Worked closely with designers and backend developers to ensure seamless integration and user experience.

Problem-Solving: Identified and resolved critical app issues, enhancing performance and stability.

Education

B.Sc. Computer Information System

The University of Jordan 

2011 – 2016 | Amman, Jordan

Languages

Arabic

English
