Experience

UI/UX Designer | im24x7 Delta Solutions | June-2024 to October-2024

- Led the design of intuitive and user-friendly digital interfaces for various projects across different sectors.
- Created high-fidelity wireframes, prototypes, and visual design concepts using Figma.
- Developed branding and logo designs, ensuring clear and cohesive visual identities.
- Focused on usability and aesthetics, delivering seamless user experiences.
- Worked with teams to align design with user needs and business goals.

Project 1

Wardrobe+ | AI Fashion Assistant App (UI/UX Case Study – Personal Project)

- Designed a mobile app focused on AI-powered outfit recommendations and digital wardrobe management.
- Built key screens like Home, Explore, Recommendations, and Wardrobe with a clean, fashion-forward UI.
- Integrated features such as virtual try-on, smart outfit suggestions, and an interactive outfit builder.
- Used Figma to create responsive, user-friendly designs backed by trend research and competitor analysis.

Project 2

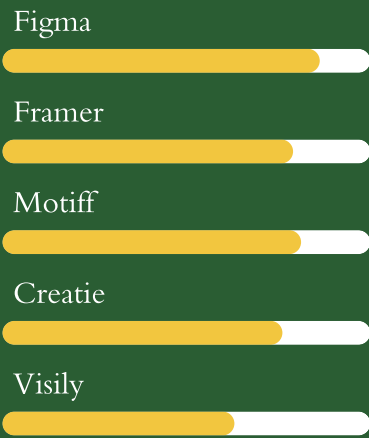

Pet Speak | AI Animal Communication App (UI/UX Case Study – Personal Project)

- Addressed the challenge of understanding pet behavior by designing an app concept that uses AI to translate animal sounds into human language.
- Built intuitive UI with a central voice button, animated translation cards, and colorful animal icons.
- Created community and history screens for user interaction and past conversation tracking.
- Focused on clean UX, real-time feedback, and personalized user experience.
