

ASLAN M

GAME DEVELOPER

CAREER OBJECTIVE

With two years of experience in Unreal Engine and Unity, including expertise in C++ for Unreal Engine 5 and C# for Unity, I am eager to explore new opportunities that leverage my skills in crafting immersive gameplay mechanics and interactive experiences. Additionally, with five years of non-professional experience in Blender, focusing on 3D modeling, texturing, and animation, I aim to contribute to a reputable organization by delivering innovative, high-quality projects while advancing my career and supporting the organization's growth and vision.

WORK EXPERIENCE

Iluzia Lab LLP- Govt CyberPark, Calicut 2023-2024

Unreal Engine Developer

Project 1

VR Driving Simulations for Safety Awareness

- Developed VR driving simulations using Unreal Engine 5 for Kerala Government Cyberdome to enhance safety training.
- Achieved a 25% improvement in training efficiency through immersive, interactive simulations.

Project 2

VR Powered AI Language Training Lab

- Created a VR language training lab integrated with AI for interactive and personalized learning experiences.
- Increased engagement by 30% using real-time feedback and API networking to connect with language learning resources.

Project 3

VR Underwater Sea Exploration

- Developed a VR submarine experience in Unreal Engine, exploring sea life from shore to ocean depths.
- Delivered 60+ FPS, reduced motion sickness, and featured an engaging educational narration.
- Received overwhelmingly positive feedback, with viewers enjoying the immersive experience and playful jump scares.
