

Mukesh Kumar

Senior Software Engineer/Angular Developer/Development Manager

PROFILE

A results-driven Microsoft Certified Technology Specialist (MCTS) with over 16 years of experience in crafting high-performance internet applications and services. Renowned for a rapid learning curve and a track record of delivering innovative, efficient, and reliable solutions. A dynamic leader who excels in uniting cross-functional teams to drive the development of cohesive, high-impact products that deliver exceptional performance and lasting results.

EDUCATION

Bachelor of Software Engineering (2002-2005)
Bahria University, Pakistan

PROFESSIONAL CERTIFICATIONS

- **Microsoft Certified Technology Specialist – (SharePoint 2010 Application Development)**
- **Microsoft Certified Technology Specialist – (Asp.Net Application, .Net Framework 3.5)**

SUMMARY

- **16+ years of in-depth expertise** in .NET technologies, consistently delivering high-performance, scalable solutions with extensive experience in ASP.NET, MVC, C#.NET, .NET Core 8, ADO.NET, and XML Web Services.
- **Proficient in Angular 18** development with a focus on building dynamic applications leveraging WebAPI 2 and Entity Framework 6/Core, enhancing both functionality and user experience.
- **4+ years of specialized SharePoint 2010 customization** and application development experience, expertly designing and implementing custom workflows that streamline processes, boost collaboration, and optimize productivity.
- **Advanced database proficiency** across MS SQL Server versions 2005, 2008, 2017, and 2022, including writing complex stored procedures, triggers, and SQL queries that ensure optimal database performance and data integrity.
- **Expert in LINQ to SQL**, driving efficient and optimized data querying for improved application performance and scalability.
- **In-depth knowledge of web server configuration** and management, with hands-on experience in IIS 6.0 and 7.0, ensuring the reliability and stability of web applications.
- **Experienced in n-tier architecture development** using C#.NET, ASP.NET, and XML Web Services, ensuring robust, scalable, and maintainable applications.
- **Extensive experience in data access methods** (ADO.NET, ADO) and MS SQL Server, ensuring seamless integration and optimized database interactions for enterprise-level applications.

Microsoft
CERTIFIED
Technology Specialist

.NET Framework 3.5,
ASP.NET Applications

SharePoint® 2010,
Application
Development

SKILLSET

Programming Languages

- Visual C# (Expert)
- Java (Novice)

DEVELOPMENT TECHNOLOGIES

- .Net Framework 2.0/3.5/4.5/.Net Core
- ASP.NET 2.0/3.5/4.5/6/.Net Core 2.2/3.1
- ASP.NET MVC
- Angular v18
- LINQ to SQL/SharePoint
- Xml Web services
- WCF, SOAP
- Xml Technologies (DOM, XPath, XSL)
- .NET Remoting
- Windows Services
- JavaScript, JQuery
- SharePoint 2010
- SharePoint Lists and Libraries
- SharePoint Business Connectivity Services
- SharePoint Content Management
- SharePoint Enterprise Search
- SharePoint Branding
- SharePoint Designer
- SharePoint Development Tools for Visual Studio 2010, 2017, 2022
- Visual Studio Team System

DATABASES

- MS SQL Server 2008, 2014, 2017, 2022

WEB TECHNOLOGIES

- Expert in **designing secure, interoperable XML Web Services**, ensuring reliable communication across diverse platforms and systems.
- Proficient in **front-end development**, using ASP.NET, XML, HTML, and JavaScript to build responsive, intuitive user interfaces that enhance user engagement.
- Expert-level **knowledge of Windows operating systems**, including Windows Server (2003/2008), XP, Vista, and Windows 7/10/11, ensuring compatibility and performance across diverse environments.
- Exceptional **debugging and troubleshooting abilities**, resolving complex issues efficiently to maintain system stability and reliability.
- Strong **foundation in object-oriented programming (OOP)** principles and n-tier architecture, driving effective client/server application design and implementation.
- **Comprehensive expertise in the design, development, and testing** of solutions using C#, ASP.NET, XML, XPath, XSLT, and SQL Server, ensuring a seamless and high-quality development lifecycle.
- Proven **problem-solving capabilities**, consistently optimizing and enhancing system performance, leading to improved efficiency and productivity across applications.

- **Microsoft IIS Server (6.0/7.0)**
- **ASP/HTML/XHTML/ CSS/ JavaScript**

CASE TOOLS

- **Visual Studio.NET (2010, 2013, 2015, 2017, 2022)**
- **Team Foundation Server**
- **Visual Source Safe**
- **SVN**
- **Git**
