OBJECTIVE

A motivated Software Engineer passionate about designing efficient and scalable solutions, eager to apply expertise in full-stack development and creative problem-solving to make meaningful contributions to dynamic projects.

PROFESSIONAL SUMMARY

With over 8 years of expertise in PHP and CMS technologies, I bring a wealth of experience in web and backend development. Proficient across various frameworks and Content Management Systems (CMS), I excel in designing and implementing web services. My track record includes successful deployment and maintenance of web applications, coupled with hands-on experience in Oracle Apex development, ensuring comprehensive solutions tailored to diverse project requirements. Committed to staying updated with emerging technologies to drive innovation and deliver excellence.

WORK EXPERIENCE

Sr. Software Engineer
Fauji Foundation

Jun 2021 - Feb 2024

- Designed, developed, and maintained ERP projects tailored for the industrial sector, overseeing the entire project lifecycle.
- Led the conceptualization, development, and ongoing maintenance of Fauji Foundation websites, ensuring optimal functionality, security, and user experience.
- Managed and configured multiple web servers within a Windows environment, including WAMP, Tomcat, and IIS, successfully hosting various web applications.
- Developed comprehensive dashboards for Education, Human Resources, and Health Divisions, enabling tracking, analysis, and reporting of division-specific data.
- Provided dedicated support and maintenance for the Fauji School Management System, resolving technical issues and optimizing performance for seamless operation.
- Provided technical guidance and mentorship to junior team members, fostering their professional growth and development within the organization.
- Proactively identified and resolved technical challenges and performance bottlenecks, ensuring smooth and efficient operation of web applications.
- Stayed abreast of industry trends and emerging technologies, evaluating their potential impact and recommending relevant strategies to enhance the team's capabilities and deliverables.

Senior Software Engineer
NEXUS Technologies

Nov 2015 - June 2021

- Customized and sustained the Asset Assignment & Complaint Management System (Kayako Classic) for HEC.
- Spearheaded software application development for the Prime Minister's Laptop Scheme, encompassing requirement gathering, web design, implementation, ongoing maintenance, and database design and implementation.
- Played a key role in the development of software applications for the Prime Minister's Fee Reimbursement Scheme, managing requirement gathering, web design, implementation, ongoing maintenance, and database design and implementation.
- Acted as a Senior Software Engineer, providing leadership and guidance to junior team members, ensuring adherence to best practices and project timelines.
- Conducted code reviews and implemented quality assurance processes to maintain high standards of software development.

- Developed add-on in WHMCS, enhancing functionality and customization options for clients.
- Successfully created a payment module for Heartland Payment Gateway, enabling secure and seamless transactions within web applications.
- Contributed to the design and development of various web applications, leveraging skills in frontend and backend technologies to ensure user-friendly interfaces and robust functionality.
- Collaborated with senior engineers to implement features and resolve technical issues, gaining valuable experience in the software development lifecycle.
- Participated in code reviews and testing procedures, ensuring code quality and adherence to project specifications and industry standards.

EDUCATION

BS Software Engineering

International Islamic University, Islamabad

Year of Graduation: 2015

- CGPA 3.06 / 4.0

FSc (ICS)

Fazaia Inter College - Chaklala, Rawalpindi

Year of Graduation: 2010

- Marks 711/1100

Matriculation

Fazaia Inter College - Chaklala, Rawalpindi

Year of Graduation: 2008

- Marks 562/850

CERTIFICATIONS

Data Analytics & Business Intelligence - Digiskills.pk

Certified in Data Analytics & Business Intelligence by Digiskills.pk, gaining expertise in analyzing data for strategic decision-making. Proficient in data visualization, statistical analysis, and predictive modeling, with hands-on experience in utilizing BI tools to create actionable insights.
