P.E.C.H.S govt college for women, Karachi

ADVANCED DIPLOMA IN SOFTWARE ENGINEERING (ADSE)

APTECH DHA

Currently pursuing a three-year diploma with a focus on web development, software engineering principles, and advanced programming. Gaining hands-on experience in building dynamic websites and web applications using technologies such as HTML, CSS, JavaScript, PHP, and MySQL. This course is enhancing my problem-solving abilities and preparing me for real-world software development challenges.

CERTIFICATION

APTECH DHA

I participated in Aptech Vision in 2023 in which I created a website with the help of HTML5, CSS3 and JavaScript that website was about rental homes called "Rently". It gave me a certificate from APTECH.

APTECH DHA

I participated in the Ramadan Hakathon competition in APTECH in which I created a website called "Hospital Management" and it was a dynamic website which I created with the help of HTML5, CSS3, JavaScript, PHP and MySQL database for which I got the certificate.

EXPERIENCE

Intern Web Developer

Mark Solve Official Present (Remote)

Location: Remote

- Developing and maintaining websites using HTML5, CSS3, JavaScript, and PHP while collaborating with a remote team.
- Assisting in creating responsive, user-friendly interfaces and optimizing websites for mobile devices.
- Supporting back-end development tasks, including working with MySQL databases to manage content and data.
- Improving website performance by optimizing images, code, and implementing best practices.
- Using Git for version control, participating in code reviews, and pushing updates through GitHub.
- Communicating and coordinating effectively with remote team members via Slack, Discord, and project management tools Notion.
- Troubleshooting and debugging websites to fix issues and ensure smooth functionality across platforms.
- Continuously learning and staying updated on the latest web development trends and tools.
