Achievements/Tasks

- Ensuring cross-browser compatibility and mobile responsiveness.
- Collaborate with designers and developers to create visually appealing and user-friendly web interfaces.
- Assist in the development of responsive web designs using HTML, CSS, and JavaScript.
- Participate in brainstorming sessions to generate innovative design ideas and concepts.
- Help in maintaining and updating existing websites, ensuring they meet industry standards and best practices.
- Conduct user research and usability testing to gather feedback and improve designs.

CERTIFICATES

Certificate of Participation in the Annual Software Exhibition of Sheikh Zayed Islamic Center (12/2016)

PERSONAL PROJECTS

Tib e Nabvi (FYP) (08/2016 - 10/2016)

- Created a dynamic website on Tib-e-Nabvi that consolidates key insights and remedies, providing a reliable resource for users seeking traditional medicine information in a market with limited options.

WeCare (e-Ambulance website) (2024 - 2024)

- TechWiz Aptech Global IT Competition:**
- Successfully designed a static website titled "WeCare" for an e-ambulance competition, showcasing creativity and innovation in user-centered design. Contributed as a key member of the design team, effectively collaborating to enhance accessibility and functionality for emergency medical services.
