WORK EXPERIENCE

Flutter Developer (Full-Time)

August 2023 - Nov 2024

PCNC IT SOLUTIONS - BETHLEHEM

- Developing and maintaining mobile banking applications using Flutter and Dart.
- Reduced application load time by 15% through efficient coding practices and optimization.
- Implemented best practices for code reviews and documentation, reducing bugs by 25% and improving team productivity.
- Led the integration of a secure payment gateway, improving transaction security and compliance with industry standards

PROJECTS

TripDiscovery (Graduation Project)

Sep2022 – May 2023

- Developed a Flutter app that facilitates communication between guides, tourist offices, and travelers.
- Implemented real-time data synchronization using Firebase, ensuring up-to-date information for users.
- Improved user engagement by 20% through interactive and user-friendly UI/UX design.

ATM Locator

July 2022 – Sep 2022

- Created a Flutter app for locating bank branches and ATMs on a map.
- Integrated external API for real-time ATM and branch data, providing accurate and current locations.

Full-Stack web application

Mar 2022 - May 2022

- Designed and developed an E-Commerce website using REST API, MySQL DB, and the Model-View-Controller (MVC) architecture pattern.
- Implemented secure authentication and authorization mechanisms, enhancing user data protection.
