- TOOLS: WEBPACK, BABEL, NPM/YARN
- VERSION CONTROL: GIT, GITHUB, GITLAB

QA Automation:

- AUTOMATION TOOLS: APPIUM, SELENIUM
- SCRIPTING LANGUAGES: JAVASCRIPT, PYTHON
- TEST MANAGEMENT: JIRA, TESTRAIL
- PERFORMANCE TESTING: JMETER

Other Tools:

- VSCODE, PYCHARM, ANDROID STUDIO
- SLACK, TRELLO ,CONFLUENCE
- DATABASES: MYSQL
- AGILE/SCRUM, APITESTING

EDUCATION

31 - 12 - 2021

University of Karachi

BS(Computer Technology)

PROFILE INFO

Frontend Developer and QA Automation Specialist skilled in building responsive web and mobile applications with React.js and React Native. Experienced in both manual and automated testing, including Appium and Python, for high software quality. Strong collaborator with a focus on seamless, user-centered solutions in agile settings.

WORK EXPERIENCE

Smart Star Software Services March 2023- Present

Software Engineer (Frontend & QA Automation)

- Developed and maintained cross-platform mobile applications using React Native.
- Created responsive web applications with React.js, ensuring compatibility across browsers.
- Automated mobile app testing using Appium with Python, significantly reducing manual testing efforts.
- Collaborated with designers and backend developers to create seamless and efficient user experiences.
- Integrated RESTful APIs to connect frontend applications with backend services.
- Participated in agile sprints, contributing to planning, estimation, and code reviews.
- Test the application across various mobile devices, screen sizes, and resolutions to ensure consistent performance and UI display.
- Validate the app on multiple operating system versions (e.g., Android, iOS) to ensure compatibility and identify OS-specific issues.

RevUp Digital Nov 2020 - Feb 2023

Manual QA Tester

- Review and understand project requirements to identify testing needs and areas of focus.
- Create comprehensive test cases covering functional, UI, regression, and exploratory testing to ensure all user scenarios are validated.
- Perform testing across multiple devices, browsers, and operating systems to ensure compatibility and consistent functionality.
- Prepare detailed test reports, test plans, and defect summaries to ensure transparency and thorough tracking of QA activities.
