SKILLS

PERSONAL PROJECTS

- King Salman Park Tunnel (01/2024 - Present)**
 - I oversee the management and optimization of network infrastructures. This includes configuring routers, switches, and firewalls, ensuring seamless connectivity, and implementing security protocols.
- Online Asset Management Platform (08/2023 - 11/2023)**
 - I undertook the development of an innovative "Online Asset Management Platform." This project seamlessly integrates MongoDB, ExpressJS, ReactJS, and NodeJS to deliver a robust and user-friendly solution.
- NFT Marketplace Integration Project (10/2022 - 12/2022)**
 - I spearheaded a personal project contributing to the NFT (Non-Fungible Token) space. In this endeavor, I focused on enhancing the functionality and user experience of an existing NFT marketplace.

CERTIFICATES

- Front-End Web Development with React (11/2022 - 12/2022)**
Coursera
- Server-side Development with NodeJS, Express and MongoDB (10/2022 - 11/2022)**
Coursera
