

Hameetha Syed Ahamed Basha

+971552396304 | hameethaahamed@gmail.com | [hameetha-ahamed](#) | Ajman, United Arab Emirates

SKILLS Tools/Technology: Java Script, PHP, Python Basics, Playwright, Postman, Jenkins, GIT, Bitbucket, Source Tree, Jira, Testrails, MongoDB, Burp Suit, Accessibility Testing, API testing, Load Testing. Project Management: Experience managing large-scale projects, including assessment plans and quality improvement.	EDUCATION BITS Pilani 2014 – 2016 Master of Business Administration (Quality Management) Anna University 2004 – 2008 Bachelor of Engineering (Computer Science)
EXPERIENCE FileCloud Dubai 2025 - current Principal Quality Engineering Architect <ul style="list-style-type: none">Driving AI-driven quality engineering initiatives, focusing on self-healing test automation.Advocate for Shift-Left testing by integrating quality practices early in the development lifecycle.Define and ensure adherence to quality standards, metrics, and best practices across the Scrum team.Collaborate with developers and architects to ensure the software design supports testability, scalability, and performance.Provide guidance on the technical feasibility of test automation and quality engineering guidelinesPromote TDD , BDD and AI-driven test strategies, leveraging machine learning for intelligent test case generation practices to ensure test coverage and clarity of requirements. FileCloud Dubai 2014 - 2024 Quality Engineering Manager Building Scalable Test Automation Frameworks <ul style="list-style-type: none">Spearheaded the adoption of Playwright for UI automation, reducing manual testing effort by 60%.Designed a scalable automation framework integrating Selenium and Cypress to support cross-browser testing.Implemented API test automation using Postman and REST Assured, improving API reliability. Leadership & Process Improvement <ul style="list-style-type: none">Managed a remote team of QA engineers, fostering a culture of quality and continuous improvement.Conducted regular knowledge-sharing sessions to enhance automation skills across the team.Optimized test execution by integrating automated tests into CI/CD pipelines, reducing deployment cycles by 30%. Project Management & Cross-functional Collaboration <ul style="list-style-type: none">Led QA efforts for enterprise-level software projects, ensuring timely delivery with zero critical defects.Worked closely with development, product, and operations teams to establish best practices for quality assurance.Drove risk-based testing strategies to focus on high-impact areas, ensuring optimal test coverage.Hiring and Organizing bug bashes.	ACHIEVEMENTS <ul style="list-style-type: none">Developed and implemented quality assurance processes that improved operational efficiency by 50%Successfully mentored and developed quality assurance professionals, contributing to their professional growth and performance. CERTIFICATIONS AU TVS for Quality Management, Anna University 2013 Six Sigma Green Belt
Amazon India 2010 – 2014 Quality Engineer <ul style="list-style-type: none">Collaborated with the engineering team to define testing scope and ensure effective testing strategies for multiple software releases.Executed automated test scripts to increase testing coverage and speed, leading to faster delivery times. Infosys 2010 – 2014 Software Engineer <ul style="list-style-type: none">Develop code as per the requirements given in the client's specification. Code reviews. Unit and Integration testing	INTERESTS Artificial Intelligence in Test Automation, AI-Driven Quality Engineering, Fitness, Up skilling, Travel
