Model Colony, Malir, Karach

An enthusiastic Software Engineeraspiring to specialize in Mobile and Website testing, aiming to become efficient Mobile and WebsiteAutomation Engineer. Leveragingextensive mobile applicationdevelopment experience to efficiently grasp challenges and transition swiftly into automation.

WORK EXPERIENCE

SOFTSTICA SOLUTIONS • SQA Engineer

11-2022 - PRESENT

- Critically evaluated user stories during Agile sprint planning to ensure compatibility with existing functionalities, identifying and addressing potential conflicts, which results in reducing development time by 25%.
- Developed test cases and plans in TestRail, covering all scenarios to improve our testing accuracy and efficiency.
- Automated APIs using Postman, maintained dynamic API collections, and wrote test scripts to ensure API-level backend functionality.
- Participated in product grooming sessions, advising on and guiding the development of upcoming functionalities.
- Proficient in designing and executing comprehensive API tests to ensure seamless integration, reliability, and performance within complex software systems.
- Equipped with basic knowledge in Selenium automation framework, complemented by integration with TestNG, contributing to effective end-to-end testing of mobile applications, with a focus on functionality and user experience.

EUSOPHT • Trainee Flutter Developer

06-2022 - 09-2022

- Experienced in API integration, adept at enabling seamless communication and data exchange among different software systems, enhancing overall functionality and user satisfaction.
- Skilled in designing the user interface for mobile applications, focusing on intuitive layouts and captivating visuals to enhance user engagement and navigation

AAGE BARHO • Flutter Intern

01-2022 - 03-2022

- As an intern developer I learned communication skills and basic development of the Mobile Applications

SKILLS

- Testcases
- Bug Reporting
- Mobile App Testing
- Web App testing
- Website Testing
- API Testing
- Database Testing
- Functional/Non-Functional Testing
- Automation Testing (Basics)

TOOLS

- JIRA
- TestRail
- GitHub
- Postman
- Selenium
- Appium
- Playwright
- Katalon Studio
- JMeter

EDUCATION

PAF-KIET

08-2017 - 05-2022

BS-CS

FAZAIA INTERMEDIATE COLLEGE

08-2014 - 08-2016

Pre-Engineering
