EXPERIENCE

Aradhya Technologies & Skill Development
Varanasi
September 2024 – Present

- **Android Development (Java & Kotlin)**: Designed and developed high-performance mobile applications with modern UI/UX, integrating advanced features like payment gateways, notifications, and database management (Room, SharedPreferences).
- **WordPress Customization**: Delivered tailored website solutions, enhancing functionality, user experience, and SEO for improved performance.
- Collaborated on end-to-end project lifecycles, ensuring on-time delivery while maintaining high code quality.
- Excelled in debugging, performance optimization, and implementing innovative solutions to meet client needs.

PROJECTS

Online Form India
(Aradhya Technologies & Skill Development)
- Developed and maintained an Android application for managing online forms in India.
- **Technologies Used**: Android Studio, XML, Kotlin, Retrofit for API integration, and Firebase for backend services.
- Implemented user-friendly features like form uploads, document attachments, and real-time data synchronization.
- Ensured smooth performance, scalability, and seamless API communication.

Dollar Wallpaper
(for Client)
- Designed and built a wallpaper application for a client, featuring high-quality images and random display functionality.
- **Technologies Used**: Android Studio, XML, Java, Firebase for data storage and caching, and APIs for image management.
- Focused on optimizing app performance, ensuring offline access, and enhancing user engagement through caching and image rotation features.

WordPress Projects
- **Sri Ram Vidyapeeth**
- **Shri Kripakulam**
