PROJECTS

Career Guidance Platform - MERN Stack

- Created a platform offering personalized career counseling, tailored courses, and resource recommendations.
- Integrated front-end and back-end features seamlessly to elevate user experience and system functionality.
- Enhanced student access to global opportunities through an intuitive, accessible interface design.

Professional Consultancy Website - React JS, Tailwind CSS

- Designed a fully responsive professional consultancy app with a modern UI, leveraging Tailwind CSS.
- Implemented smooth, visually appealing animations to craft an engaging user experience.
- Optimized performance across all devices, ensuring flawless functionality on both desktop and mobile platforms.

Youtube Video Pauser (Chrome Extension) - React JS, Webpack

- Automatically pauses videos when you switch tabs and resumes playback when you return, ensuring you never miss a moment while staying efficient.
- Optimize your browsing experience by reducing unnecessary video streaming in inactive tabs, helping you stay productive and data-conscious.
