Dear Hiring Manager,

I am writing to express my interest in the Software Developer position at your organization. With over three years of experience developing sophisticated mobile and web applications using modern technologies, I am confident in my ability to contribute significantly to your team's success.

In my current role at Confidev Tech Pvt. Ltd., I have led the development of two major applications - Sunnah Nikah and BigBaniya - showcasing my expertise in React Native and full-stack development. At Sunnah Nikah, I implemented AI-based matchmaking features while adhering to specific cultural requirements, demonstrating my ability to balance technical innovation with user needs. My work on BigBaniya's B2B eCommerce marketplace further highlights my capacity to develop complex, scalable solutions.

During my tenure at Coalescence Technologies, I improved web application performance by 30% and reduced API response times by 40% through optimized MERN stack practices. My experience with Python scripting and data manipulation has enabled me to automate processes, resulting in significant efficiency improvements.

My technical proficiency spans across Python, JavaScript, Node.js, React Native, and MongoDB, complemented by strong UI/UX design skills using Figma. I am particularly proud of my track record in increasing user engagement and retention through intuitive interface design and efficient backend implementations.

I am drawn to your organization's commitment to technological innovation and would welcome the opportunity to discuss how my skills and experience align with your team's needs. Thank you for considering my application.

Best regards,
Mohammad Zaid Siddiqui
