PROFESSIONAL SUMMARY

I am a dedicated and detail-oriented Flutter Developer with a passion for creating seamless, user-friendly mobile applications. With expertise in Flutter, API integration, Firebase, state management, Java, and Kotlin, I specialize in developing real-time, scalable, and intuitive applications. My experience includes building diverse mobile solutions, from e-commerce platforms and chat applications to CRM and multimedia utilities, ensuring high performance and user engagement.

PROFESSIONAL EXPERIENCE

Flutter Developer | 2024-2025
IT-Genisis

- **E-Commerce App:** Developed a feature-rich e-commerce platform using Provider state management and APIs to handle product listings and user interactions efficiently.
- **OLX App Replica:** Designed and built an OLX-like marketplace for buying and selling items, integrating user profiles, real-time updates, and seamless state management with Provider and APIs.
- **Novel App:** Developed a reading application with an intuitive UI/UX design, integrating REST APIs for fetching and displaying novels dynamically. Implemented state management for seamless user navigation and improved reading experience.

Flutter Developer Intern | 2024
Techno Softs

Developed three applications during the internship:
- **PDF Converter App:** Implemented five key functionalities, including image-to-PDF, Word-to-PDF, PDF splitting, merging, and compression.
- **CRM App:** Designed a customer relationship management (CRM) application to streamline data handling for meetings, call schedules, and business workflows.
- **Chat App:** Built a messaging application allowing users to connect via phone numbers and usernames, enhancing social engagement.
