Gaurang Darji

To plan and design the structure and design of web pages. To develop website features that can enhance the user experience. To strategize design choices according to user experience. To implement design for mobile sites

Work Experience

Front End Developer - 8DOTS

August 2022 - June 2023
Developed and maintained front-end codebase using HTML5 and CSS3, ensuring cross-browser compatibility and adherence to web standards. Streamlined financial reporting processes, enhancing overall efficiency by 20%. Gained exposure to popular front-end frameworks such as Bootstrap and React, participating in the integration of these technologies into ongoing projects.

Front End Developer - RED

December 2024 - Current
responsible for designing and implementing user-facing features for our web applications, ensuring a seamless and intuitive user experience. You will collaborate closely with our design, product, and back-end teams to translate concepts into high-quality, scalable, and responsive web interfaces.
