ABOUT ME

With **two enriching internship experiences**, I am a **final-year Computer Science student** eager to transition into the tech industry. My expertise lies in **backend development, SQL, and database management**, where I excel in designing optimized data solutions and building scalable architectures.

Proficient in **C++, JavaScript, PHP, MySQL, Node.js, and modern web technologies (HTML, CSS, Bootstrap)**, I have a strong foundation in **data-driven systems, backend logic, and performance optimization**. Plus have deep knowledge in UML Diagrams of the Systems.

I am now seeking an opportunity for Job in Industry to leverage my technical skills, gain industry exposure, and contribute effectively to a dynamic team. Open to roles in **backend development, database engineering, and full-stack development**.
